# New Eco Natural Shelter

**ARIMA**

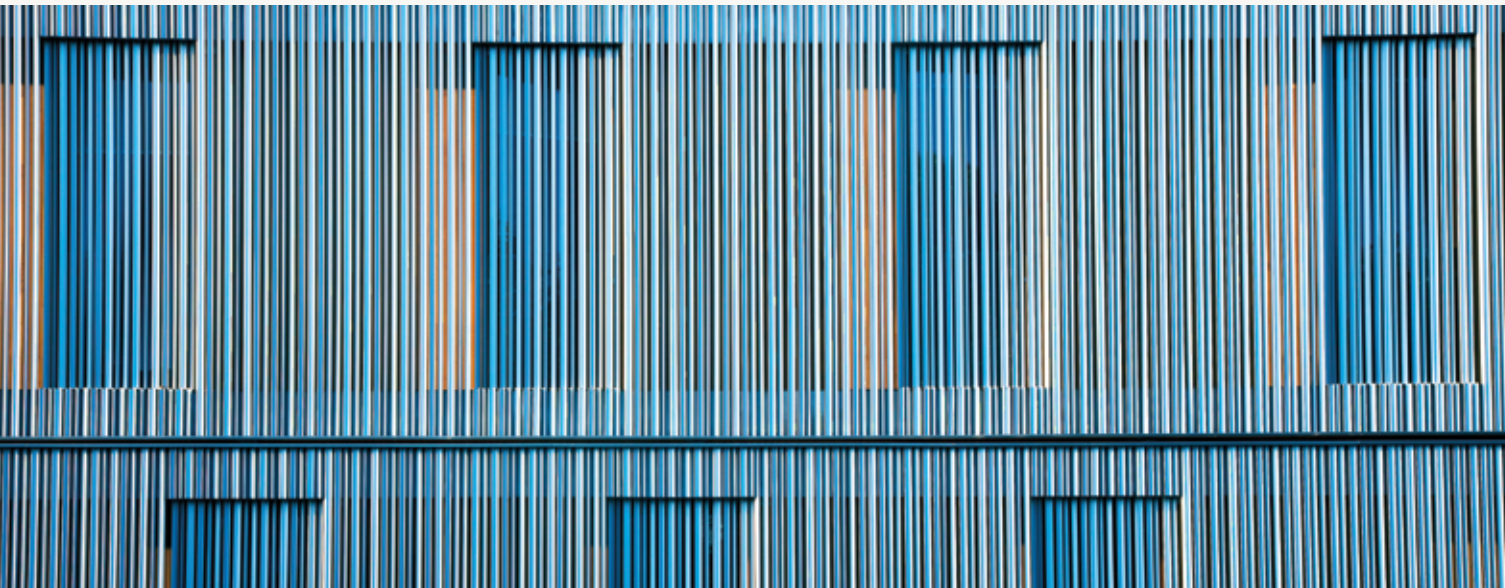

## OUR PHILOSOPHY.

Arima Hotel reflects the way of being, of believing, of acting and of understanding life of a **family** that lives by a **natural, healthy** and **respectful** philosophy for everything that surrounds us: nature and the world.

A way of life that took shape over time and created a **sustainable** and **innovative** space, able to connect its guests with nature and a healthy lifestyle, and experience the unequalled sensation of wellbeing.

**“A unique Hotel that unites, at last, luxury and design with comfort and sustainability”**

## **SUSTAINABILITY. INNOVATION.**

**Arima means “soul” in Basque**, and our hotel's soul is sustainable by nature.

A hotel in which each supplier, contributor and brand share our philosophy, using techniques and processes that are integrated in the environment. Together, we aim to reduce to a minimum our environmental footprint.

### **“First hotel in Spain and largest in Europe to hold the Passivhaus certification”**

A German standard focused exclusively on high energy efficiency of buildings to minimize the need for energy. Our Hotel consumes 70% less energy than any other built under conventional construction criteria.

**“You must be the  
change you wish to see  
in the world”**

## **ECO-NATURAL RETREAT.**

A Hotel whose location offers unparalleled views over the 60 hectares of the Miramon Natural Forest. At the same time, it gives guests the opportunity to enjoy the city and its people in just 15 minutes.

A perfect mix between the romantic and original lifestyle of a city like San Sebastian, combined with the silence, peace and relaxation of walking through a forest of native trees.

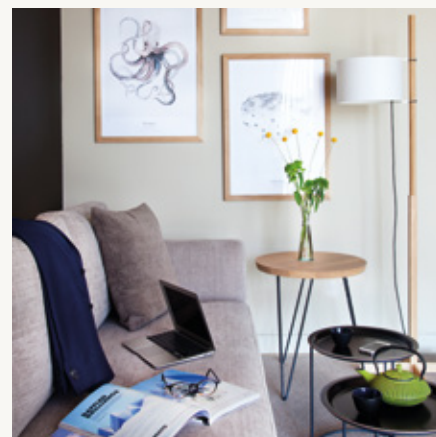

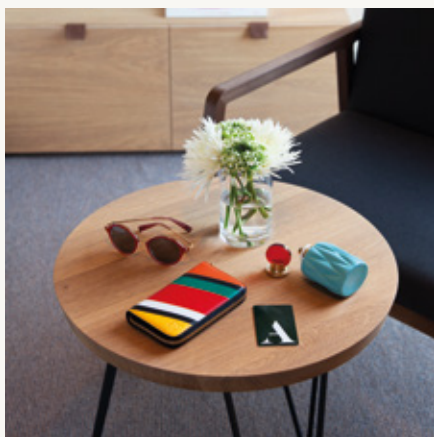

**“The green lung of the  
city... just a few  
minutes away from  
downtown”**

# Dream

## ROOMS.

With wood as their main element, our rooms have been designed under a clear focus: to welcome guests and improve their rest, health and comfort.

A purpose achieved thanks to the acoustic isolation, controlled temperature and humidity levels and low CO<sub>2</sub> levels in the room. In addition, clean energies are also used – Aerothermal and Geothermal – for an optimal climate solution and hot water supply.

**“Cozy rooms with a timeless design where inspiring views over the forest dominate the scene”**

## TILIA DELI & CAFÉ.

Breakfast, daily menu, bistrot menu and healthy snacks to make you feel at home.

Often times staying away from home means breaking our daily eating habits. To balance it out, Tilia offers our guests a healthy and original gastronomic offering in the morning, midday and evening, which varies every week.

The space is totally open to nature and full of natural light. Its outdoor terrace overlooking the forest allows our guests to disconnect from the hustle and bustle of the city and breathe fresh air.
